HylaTube is a free service with an innovative concept: It collects content from various sources on the internet, such as YouTube, Vimeo and Dailymotion. All of the content is given a quality tag that allows users to recommend or dislike specific videos and channels. How does HylaTube work? The service indexes all of the videos that are uploaded to your YouTube account, and it also contains a database of all the videos that have been made for other services. When you upload videos, they are automatically indexed by HylaTube. You can also download any video directly to your computer. How do I subscribe to HylaTube? You can use a Social Media Account or a Direct Facebook Message. After subscribing, you can see which videos and channels are being recommended to you via a home screen display. What is the difference between HylaTube Premium and HylaTube Basic? Premium offers personalized recommendations by adding themes to your home screen and making your content recommendations public. The Basic version of HylaTube does not provide you with any extra features. You can activate the premium features from the app. How do I activate or deactivate HylaTube? You can activate or deactivate HylaTube from the app. By doing so, you can also choose to delete all of your YouTube data. You can also sync your bookmarks between your computer and your mobile device.
